

SKaTtered but **TOGETHER**

SKT Gallery launches virtual exhibition to unite artists and viewers

SKT is a new exciting project with the aim of creating a scattered gallery without borders. Currently, we are preparing to launch our second virtual exhibition **TOGETHER** that will run from **15 July to 15 August** on our [homepage](#).

TOGETHER will focus on the role of art in society. At SKT we are keen to celebrate art as a tool for unity and positive connectivity. We have encouraged our artists to treat the theme as broadly and originally as possible. Using high-resolution images and specially designed software, we place artworks within a virtual 3D gallery space for viewers to explore online. **TOGETHER** follows on from the success of our first exhibition [#ARTMUSTGON](#) which can still be viewed!

At SKT we strongly believe that **art can save the world** and artists need innovative ways to showcase their work. We are passionate about promoting emerging artists from all over the world and helping them connect with a global community of art-lovers. We want to provide a platform for artists that can withstand these weird and difficult times. We won't stop; art must go on! Look out for our scattered galleries that will be popping-up soon in urban spaces world-wide.

Follow us on [LinkedIn](#) and [Instagram](#) for more exciting ventures. If you are a budding visual artist, or would like us to consider a specific location for one of our exhibitions, don't hesitate to [contact](#) us.
